About This Game

You and your friends are the deadliest killers in the galaxy. Another glorious day in the Corps.

Buckle up, soldier! Welcome to Aliens™: Colonial Marines. Created by Gearbox, the critically acclaimed and fan-favourite developers of Borderlands and Brothers In Arms, you and your friends will become the most badass military outfit in the galaxy – the US Colonial Marines. It's up to you to not just survive, but wipe out the Xeno infestation.

Key Features:

Enlist in the Marine Corps.

Bringing you a true sequel to the classic Aliens film, get tooled up with classic Marine weapons including pulse rifles, motion trackers and
flamethrowers.

The most authentic Aliens experience ever.

Using authentic environments inspired by the film series including Hadley's Hope, the Sulaco and LV-426, you will be immersed in an eerie, atmospheric
world where any moment could bring your death.

Drop-in/Drop-out co-operative gameplay.

The masters of co-op bring their expertise to the Aliens universe. Xenos getting too tough? Call up your buddies so they can drop in with extra
firepower. The whole campaign can be played with a squad of up to four players, dropping in and out as necessary through self-contained missions
within an over-arching narrative.

Loadouts and upgrades.

Create your perfect killing machine. An extensive upgrade system allows players to customise their characters to play the way they want. Earn experience to get perks, new weapons and new looks for your squad.

people get banned for a year for cheating on esea but people get banned for 20 years for calling few fat of forums (dont ban me few). Dull and boring.. I really like this game. It reminds of games from the 80's and 90s. Good buy!. I really enjoyed the game to start with. There were many maps and mini games between them, but a few levels in it started to get repetitious, especially the mini games. The mini games repeat themselves with the exact same game with the exact same picture. This was a great game to play after a long day. I could sit, play, and not really think. Timed mode gives plenty of time if your goal is just to relax. I will look for more games by popcap for this reason. It was a relaxing liitle game.. Trauma is challenging, maps are well designed and interesting.
One in fact is the best I've seen.

Playing with Lingard makes it considerable harder, and very fun.

So I am affraid those writing bad reviews about this DLC are simply trolling.. As basic of a game as you will ever get it, will take an hour to finish all levels & get 100% on the game, so if your one of those people that want to get an easy 100% this is your game

imo this game is worth about 30 cents and thats about it. The new scenario is quite difficult to win although I find it fun. Well worth every penny for those who want a real challenge.. fun 4x from growing up. Amazing game!

Really fun! Very well made for such a cheap game.
Has an awesome soundtrack, online multiplayer, and Steam workshop too.... totally worth the price! :). You can literaly turn around at the start of the race, go back a bit, turn back around, and it will count as a lap. 10/10. The ergonomy of this game is terrible. I'm a huge fan of the grid-based dungeon crawler genre but Heroes of the Monkey Tavern has big issues:

- keyboard controls aren't queued. This is a very typical subtle control issue: if I press "turn left" twice, the second input is discarded because the animation of the 1st action is still ongoing. This makes the most basic action (moving around) feel absolutely terrible. If you play Legend of Grimrock for 5 minutes you'll notice the difference immediately.

- the whole game UI is crippled with tons of subtle issues like this one, and in the end, the game feels like it was made without any kind of attention for the core gameplay interactions: move around, attack, pick items, manage inventory. Everything feels clumsy as hell.

- no drag & drop for item picking? Seriously?

- no control binding. Seriously, it's 2018. QWERTY controls just don't work for ALL countries.

- 2D art is "meh" at best, character faces during the intro are... x_x. Looks like most of the art was created by someone who can barely draw. May sound rude, but it is the way it feels.
. Awesome point and click adventure game! All i have to say!. Underrated.. great game for doctor who fans!

Gameplay > https://www.youtube.com/watch?v=auIY_3zYjzM. Wow. This is seriously a 2006 racing game?

'Cause♥♥♥♥♥♥ the graphics here makes the game look like it was made in 2010!
And not only that, but the fabulous, detailed car sounds are even better than the likes of Gran Turismo.

Props to the ones that built the engine this game is powered by. Thank you so much for making this!. Dropped 500 units of cocaine ,$14.000.000 and a minigun on street, then accidently surrendered to police officer on day 345.. Does not work dont buy
